

Title: Bachelor of Science (plus vocational training degree)

Study duration: 4.5 years

Credit points: 180 CP

Year of Study	Module name	Place of Study	Examination	Workload (P / S)	Leistungs punkte	
Year 1	Introductions to theories and models of nursing science	Vocational School	Recognition Vocational Training	45 / 80	5	37
	Nursing diagnostics and process design in general surgical fields of activity	Vocational School	Recognition Vocational Training	45 / 80	5	
	Fundamentals of nursing science	University	Assignment	50 / 100	6	
	Fundamentals of nursing research	University	Assignment	50 / 100	6	
	Basics of communication and relationship building	Vocational School	Recognition Vocational Training	45 / 80	5	
	Basics of patient education, guidance and autonomy support	Vocational School	Recognition Vocational Training	45 / 80	5	
	Scientific basics of nursing care	Vocational School	Recognition Vocational Training	45 / 80	5	

Year 2	Lifeworld-oriented care process design in long-term care relationships	Vocational School	Recognition Vocational Training	45 / 80	5	36
	Integration of nursing science findings into nursing practice	Vocational School	Recognition Vocational Training	45 / 80	5	
	Care processes for extensive care requirements	Vocational School	Recognition Vocational Training	45 / 80	5	
	Nursing diagnostics and process design in general internal medicine fields of activity	Vocational School	Recognition Vocational Training	45 / 80	5	
	Professional communication and relationship management	University	Combined Module exam	50 / 100	6	
	Professional communication in complex care situations	Vocational School	Recognition Vocational Training	45 / 80	5	
	Independent implementation of medically prescribed diagnostic and therapeutic measures	Vocational School	Recognition Vocational Training	45 / 80	5	

Year 3	Nursing care in acute situations	Vocational School	Recognition Vocational Training	45 / 80	5	32
	Nursing care in life-limiting situations	Vocational School	Recognition Vocational Training	45 / 80	5	
	Making patient education rehabilitative	Vocational School	Recognition Vocational Training	45 / 80	5	
	Basics of intra- and interprofessional work organization and cooperation	Vocational School	Recognition Vocational Training	45 / 80	5	
	Work organization and cooperation in curative care processes	Vocational School	Recognition Vocational Training	45 / 80	5	
	Lifeworld-oriented, sustainable assistance and care structures in the social space	University	Assignment	58 / 117	7	

Year 4 (Semester 7)	Nursing Science Methods	University	Combined module examination	60 / 90	6	
	Applied Nursing Research	University	Combined Module Examination	50 / 100	6	
	Collegial counselling in different care settings	University	Portfolio	50 / 100	6	
	Health promotion and prevention in the health system and health policy	University	Assignment	58 / 117	7	

Year 4 (Semester 8)	Elective module specialization area I: Complex nursing processes in acute clinical care	University	Portfolio	60 / 90	6	25
	Elective module specialization area I: Professional nursing care in care-sensitive areas of acute care	University	Term paper	50 / 100	6	
	Elective module area of specialization II: Family-related needs in long-term care	University	Portfolio	50 / 100	6	
	Elective module specialization area II: Family-related care settings in long-term care	University	Term paper	50 / 100	6	
	Family-related counseling and case management in long-term care	University	Portfolio	58 / 117	7	
	Nursing collaboration in the skill and degree mix	University	Assignment	50 / 100	6	

Year 5 (Semester 9)	Advice and guidance in the context of training and further education	University	Portfolio	58 / 117	7	25
	Nursing science capstone project: concepts and concept development	University	Portfolio	50 / 100	6	
	Bachelor Thesis	University	Bachelor Thesis	300	12
